

## SolarEdge Single Phase Inverter for On-grid and Backup for Europe, APAC & South Africa

SE5000-RWS / SE6000-RWS

## Ideal for backup power and on-grid storage

- Backup Power inverter includes the hardware required for automatic backup power for backed-up loads in case of grid interruption
- **~ On-grid Applications** maximizes self-consumption, export limit, time of use shifts for reduced electric bills
- Simple Design and Installation single inverter for PV, on-grid storage and backup power
- **Enhanced Safety** designed to eliminate high voltage and current during installation, maintenance or firefighting
- Full Visibility built-in monitoring of battery status, PV production, remaining backup power, and self-consumption data
- **Easy Maintenance** remote access to inverter software

## SolarEdge Single Phase Inverter for On-grid and Backup for Europe, APAC &

South Africa SE5000-RWS/SE6000-RWS

|  | SE5000-RWS                                       | SE6000-RWS  |                                       |
